EDUCATION

Indian Institute of Information Technology, Sri City

Andhra Pradesh, India

B.Tech in Computer Science and Engineering — CGPA: 7.22

Jul 2024 – Present

Narayana Junior College

Vijayawada, Andhra Pradesh

Intermediate — 95.5%

Jun 2022 – Jun 2024

PROJECTS

GlobeSync | *NestJS, TypeScript, MySQL, Swagger* | GitHub

- Travel itinerary planning and coordination platform supporting travelers, guides, administrators, and customer support workflows.
- Includes trip booking, package management, payments, messaging, and support ticket handling with role-based access control.
- Structured with modular backend services for scalable API-driven communication across application workflows.
- Frontend and backend integration replacing prototype mock workflows with dynamic application functionality.

StoriX | *React.js, Redux Toolkit, NestJS, PostgreSQL, Redis* | GitHub

- Building an intelligent file management platform with chunked uploads, resumable transfers, and centralized digital asset organization.
- Includes metadata-driven search, access-controlled sharing, storage analytics, and version-aware file lifecycle workflows.
- Incorporates file deduplication logic using hashing to optimize storage efficiency and reduce redundant storage usage.
- Structured backend services for scalable file orchestration and large-file handling workflows.

CodeLens | *React.js, Redux Toolkit, Node.js, GitHub API, OpenAI API* | GitHub

- Building an AI-powered repository intelligence platform to simplify understanding of GitHub repositories through repository URL analysis.
- Includes architecture summaries, codebase explanations, project structure insights, and technology breakdowns for faster comprehension.
- Trending repository insights surface popular projects, emerging technologies, and developer activity patterns.
- Combines repository metadata analysis with AI-driven summarization for engineering-focused insights.

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript, TypeScript, SQL

Technologies/Frameworks: React.js, Redux Toolkit, Node.js, NestJS, Tailwind CSS, REST APIs, Redis, Swagger, Git/GitHub, Jira

Databases: MySQL, PostgreSQL

Relevant Subjects: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

ACHIEVEMENTS

- Attended **Build with AI Bootcamp** by Hack2Skill.
- Participated in **Google Gen AI Academy (APAC Edition)**.

POSITIONS OF RESPONSIBILITY

- **Project Lead, Full Stack Software Development Project (IIIT Sri City)** – Led a team of 5 in building GlobeSync, coordinating feature planning, task delegation, sprint tracking through Jira, collaborative development, and technical decision-making for system workflows.
